Here comes
the Sun!

Our sun can do a lot of cool things like tan our skin and make flowers and plants grow, but we need to be smart about the sun and its potential dangers.

* Always make sure to take frequent breaks from the sun by going inside or in the shade.

* Put on sunscreen and reapply often. The sun can cause wrinkles and skin damage. Just because you don't see these things happening right away does not mean they won't happen eventually.
